

ReServe Connect for Outlook

ReServe Connect by ReServe Interactive® allows you to integrate e-mail correspondence via Microsoft Outlook®, as well as export your event calendar using the power of Google, the world's leading Internet search engine and web services provider. The result, enhanced productivity, improved flexibility and control over everyday operations.

Integrate E-Mail Correspondence with ReServe Connect

ReServe Connect allows you to associate e-mails from Outlook with corresponding contacts, events or reservations in ReServe, enabling you to capture a complete correspondence history with the simple click of a button located in your Outlook toolbar. ReServe Connect is fully integrated so when you receive or send an e-mail in Outlook, you can attach it to the appropriate Contact, Event, Event Reservation or Dining Reservation in ReServe without having to switch back and forth between systems.

Easily Access Your Event Calendar

ReServe Connect makes it easy for you to share your Event Calendar with other systems by integrating with the Google API. Google, the industry-leading open platform for cloud solutions, is a flexible and cost-effective integration platform for any size business. ReServe Connect allows you to export your Event Calendar from ReServe to a specified Google calendar which you can then sync to your mobile devices, your website, or other applications.
