

# ReServe Cloud

Announcing ReServe Cloud<sup>SM</sup>, our biggest software release in company history. ReServe Cloud CC Edition is completely redesigned for convention and conference centers. Featuring a powerful, fully integrated software platform, ReServe Cloud CC Edition is engineered for what's important to you and your business.

## Designed for your **success.**

From complete browser-based access on your tablet, iPad™ or PC, to click and drag multi-view calendar and event book functionality, ReServe Cloud CC Edition revolutionizes how you manage your hospitality operations. Check event space availability while doing a site visit. Update an order from the show desk. Complete consumptions while on the event floor. It's easy to navigate and even easier to use while giving you more control over best practices, users and your overall business from the top down.

New and enhanced software features include:

- Click and drag calendar and event book
- iPad and tablet accessibility
- Event grouping capabilities uniquely designed to handle show management, exhibitor and ancillary orders
- E-signature integration
- Online payment processing integration
- Custom fields and screen layouts
- Fully customizable document templates with graphics
- Greatly enhanced reporting features analyze data at all layers of an event or convention
- Customizable Event Lifecycle stages and tasks
- Unlimited revenue categories and tax settings
- Separate lead management
- Package and à la carte services capabilities
- High powered CRM and Accounts database
- NextGen Email - send an email from ReServe and all responses are stored in the Event
- Global search capabilities
- PLUS - the same level of performance and support you've come to expect from ReServe Interactive
